- entities that have opted for a different financial year from the calendar year.

B. The accounting errors, as defined by the applicable accounting regulations, are corrected according to the respective regulations. As a result, in case of their correction, another set of annual financial statements / corrected annual accounting reports cannot be submitted.

C. The mode of reporting in the case of returning to the calendar year, following the election of a financial year different from the calendar year, according to art. 27 of the accounting law

Whenever the entity chooses a different financial year from the calendar year, the provisions of art. VI paragraph (1) - (6) of OMFP no. 4.160 / 2015 regarding the modification and completion of some accounting regulations shall be applicable.

In the case of returning to the calendar year, the accounting law does not provide for the submission of any notice in this regard.

According to the provisions of art. VI paragraph (7) of the said order, if the entity modifies the date chosen for the preparation of annual financial statements so that the reporting financial year returns to the calendar year, the balance sheets reported starting with the next financial year¹⁾ ended refers to January 1 , December 31, respectively, and the revenue and expenditure accounts are in line with the current financial year²⁾, respectively to the financial year preceding the reporting year.

For example, if a company that had the financial year other than the calendar year, chooses to return to the calendar year starting with January 1, 2020, it draws up accounting reports as follows:

- for December 31, 2019 - annual accounting reports;
- for December 31, 2020 - annual financial statements.

D. Accounting of the amounts received from the shareholders / associates - is made in the account 455³⁾ "Amounts owed to the shareholders / associates".

If the loans are received from affiliated entities, their value is recorded in the account 451 "Settlements between the affiliated entities".

1) This refers to the first financial year for which the annual financial statements are redrafted at the level of a calendar year.

2) This is the first financial year that becomes a calendar year.

Thus, according to the example presented above, the balance sheets included in the annual financial statements ended on December 31, 2020 refer to January 1, 2020 and December 31, 2020, respectively, and the revenue and expenditure accounts correspond to the current financial year (2020), respectively to the financial year preceding the reporting year (2019).

3) See, in this regard, the provisions of point 349 of the accounting regulations, according to which the amounts deposited or left temporarily by the shareholders / associates at the disposal of the entity, as well as the related interests, calculated according to the law, are recorded in the accounts in the accounts distinct (account 4551 "Shareholders / associates - current accounts", respectively account 4558 "Shareholders / associates - interest to current accounts").

Balance / Transactions to be carried forward from the accounting balance in forms F10 and F20 col.2 (current year)
